...1st anniversary...9-9-10...

**we are - we are - both aliens
remembering that once ago
when we prayed the ghosted fields
into songs of indigo -**

**from that deep of evening light
when the thistles were in silk
we swam out of a hidden earth
into a new born radiance -**

**and there - the promises of love
that we made before our birth
illuminated shooting stars
streaking through the universe.**
