

...may 11, 2018...

***yesterday you said you're saving
for some future of old age
squirreling dollars into funds
awaiting years that may not come –***

***instead of scrounging – let's eat out –
exploring countries – cities – shops –
beyond those finances you've saved
that wither into nothingness –***

***quickly – swiftly – spend – enjoy –
there is no other time but now –
only now – only this breath
you might not make to the next –***

***invest in travels – nature – life –
enjoy – enjoy – at last – at last –
live dreams that will not come again.
instead of funds that trap the breath.***
