**divinities – above – within –
thou art all we shall become –
allahu akbar – heart of aum –
beyond the smallness of our names –**

**goddesses – gods – the christed ones –
the tao that is but can't be named –
protons – neutrons – all-that-is –
the heart that makes the atom spin –**

**tahuti – kali – hermes – ra –
all consciousness is born through thee –
while we are but fragmented lives
apart and learning unity –**

**buddha – huwa – hathor – ka
mindfulness reflecting all –
world infinities explode
out of the one that has no name.**
