

...october 6, 2023...

**remember – remember –
the reds of october
that swept through the leaves
and watched the sun set –**

**remember – remember –
the ghosts of october
flooding atlantis
in oceans of myth –**

**remember – remember
where memories live –
we are atlantis
reliving the tale –**

**remember – remember
the ghosts of october
that rise to remind us
of what we once were –**

**remember – remember
in the reds of october
what once was destroyed –
we now can rebuild –**

**remember – remember
through the ghosts of october
that both past and future
are weaving the now.**
