

...may 8, 2025...

**apple me crisp and apple me green  
this is the best apple i've ever seen –  
there's only this now and only this crunch  
juicing my teeth and slaking my thirst –**

**this is the best because it is now  
dancing my taste buds over and over –  
this is the best till some future next  
gathers my now into always the best.**
