***cucumbers and hummus  
and my brain is travelling  
forty year into a past  
of working years in saudi –***

***cucumbers and hummus –  
sun and heat and sand  
where crescent moons sit like a boat  
sailing midnight stars –***

***cucumbers and hummus  
we are the everything  
of everyone we've ever met  
and every place we've been.***
